EDUCATION

- 2010 – 2013 *Emory University Rollins School of Public Health*
Ph.D., Department of Behavioral Sciences and Health Education
- 2008 – 2010 *University of Kentucky College of Public Health*
Master of Public Health, Departments of Health Behavior and Epidemiology
Graduate Certificate in Maternal and Child Health
Graduate Certificate in Global Health
- 2003 – 2007 *Transylvania University*
Bachelor of Arts in Biology, Minor in Psychology
- 2005 *Macquarie University (Sydney, Australia)*
Semester Coursework in Biology

RESEARCH INTERESTS

Substance use, social network analysis, rural health, community engagement, HIV, Hepatitis C

PROFESSIONAL EXPERIENCE

- July 2018 - present **Associate Professor with Tenure**
Department of Epidemiology
University of Kentucky College of Public Health (Lexington, KY)
- 2015 - present **Faculty Associate**
Center on Drug and Alcohol Research
University of Kentucky College of Medicine (Lexington, KY)
- 2018 - 2021 **Core Faculty**
Center for Health Equity Transformation
University of Kentucky College of Medicine (Lexington, KY)
- 2014 – 2018 **Assistant Professor**
Department of Epidemiology
University of Kentucky College of Public Health (Lexington, KY)

- 2011 – 2013 **Analyst**
Center on Drug and Alcohol Research, Department of Behavioral Science
University of Kentucky College of Medicine (Lexington, KY)
- 2009 – 2011 **Research Assistant**
Center on Drug and Alcohol Research, Department of Behavioral Science
University of Kentucky, College of Medicine (Lexington, KY)
- 2012 **Adjunct Instructor**
Transylvania University
- 2012 **Student Researcher**
Department of Global Health
Rollins School of Public Health at Emory University (Atlanta, GA)
*Project in Mukuru, Kenya
- 2010 – 2012 **Graduate Fellow**
Social and Behavioral Sciences Research Center
Emory University (Atlanta, GA)
- 2010 – 2012 **Graduate Research Assistant**
Department of Behavioral Sciences and Health Education
Rollins School of Public Health at Emory University (Atlanta, GA)
- 2008 – 2010 **Graduate Research Assistant**
Rural Center for AIDS/STD Prevention (Lexington, KY)
- 2007 – 2009 **Research Coordinator/Graduate Research Assistant**
Department of School Psychology
University of Kentucky College of Education and Counseling Psychology
- 2006 – 2009 **Research Assistant**
Department of Health Behavior
University of Kentucky College of Public Health (Lexington, KY)

AWARDS and HONORS

- 2021 University Research Professor
University of Kentucky
- 2014 - 2018 Health Disparities Scholar, Loan Repayment Program
National Institutes of Health
- 2017 Dean's Outstanding Teaching Performance Award
University of Kentucky College of Public Health
- 2017 Teacher Who Made a Difference Nominee
University of Kentucky College of Education

2017	Delta Omega, Honorary Society in Public Health <i>Beta Gamma Chapter, University of Kentucky</i>
2016	Golden Apple Teaching Award <i>University of Kentucky College of Public Health</i>
2015	Dean's Innovation in Teaching Award <i>University of Kentucky College of Public Health</i>
2015, 2017- 2021	Wethington Award <i>University of Kentucky College of Public Health</i>
2015	Outstanding Alumni - Emerging Professional Award <i>University of Kentucky College of Public Health</i>
2014 - 2015	Exceptional Reviewer, <i>Journal of Rural Health</i>

RESEARCH FUNDING

Current Funding

NIDA R01 DA049333 Stevens-Watkins (PI) 9/30/20 – 7/31/25
Research Examining Factors Associated with the Opioid Crisis Among Underserved African Americans (REFOCUS)

The REFOCUS project examines how structural, social and cultural factors influence nonmedical prescription opioid use (NMPOU) and treatment service use among African Americans across the adult lifespan.

Role: Co-investigator

NIDA UM1 DA049406 Walsh (PI) 4/17/19 - 3/31/23
Kentucky CAN HEAL (Communities and Networks Helping End Addiction Long-term) HEALing Communities Study

This multi-site implementation research study will test the impact of an integrated set of evidence-based practices across health care, behavioral health, justice, and other community-based settings in 67 communities in four states (Kentucky, Ohio, New York, and Massachusetts). The goal of the study is to reduce opioid-related overdose deaths by 40 percent over the course of three years.

Role: Co-investigator (Lead of Community Engagement Team)

NIDA K01 DA048174 Lancaster (PI) 3/15/19-2/29/24
The role of injection partnerships and preferences for reducing HCV risk: Giving a voice to young women in rural Appalachia

Using a mixed methods approach, the project will 1) examine factors within injection partnerships that influence HCV risk and 2) measure preferences for obtaining services that reduce HCV risk among young women who inject drugs.

Role: Co-mentor

NCATS U01 TR002631 Korthuis and Young (PIs) 9/18/18 - 8/31/23

Peer-based Retention Of people who Use Drugs in Rural Research (PROUD-R²)

The study leverages the National Rural Opioids Initiative infrastructure, with sites in rural Oregon and Appalachian Kentucky and Ohio, and partnerships with three Clinical and Translational Science Award sites and the NIDA Clinical Trials Network to test an innovative peer-based strategy to improve research participation and retention of people who use drugs in rural communities.

Role: Principal Investigator (multi-PI proposal with Todd Korthuis)

NIDA UG3/UH3 DA044798 Young and Cooper (PIs) 8/15/17 – 7/31/22

Kentucky Communities and Researchers Engaging to Halt the Opioid Epidemic (CARE2HOPE)

This project employs community/academic partnerships to build effective, evidence-based, community-grounded public health responses to combat the intertwined epidemics of heroin and non-medical prescription opioid injecting, overdoses, and HCV, and imminent HIV outbreaks, in 12 of the hardest hit rural counties in the US. Located in Central Appalachian Kentucky, 10 of the 12 counties are in the top 5% for HIV/HCV vulnerability in the US.

Role: Principal Investigator (multi-PI proposal with Hannah Cooper)

NIDA R01 DA047952 Havens (PI) 9/30/18 – 7/31/23

Increasing Access to Hepatitis C Treatment in Opioid Endemic Rural Areas: the Kentucky Viral Hepatitis Treatment (KeY Treat) Study

The overarching goal of the Kentucky Viral Hepatitis Treatment Project (KeY Treat) is to increase access to treatment for the hepatitis C virus (HCV) in a rural Appalachian community in the midst of the opioid/HCV syndemic.

Role: Co-Investigator

NIDA R01 DA033862 Havens (PI) 9/1/12 – 11/28/21

Effect of Structural Interventions on HIV/HCV Risk among Rural PWUD

The goal of the study is to examine engagement in structural interventions and to determine their potential influence on risk reduction and health promotion activities among rural Appalachian people who use drugs.

Role: Co-investigator

Completed

Pilot Grant from University of Freeman (PI) 9/30/19-3/30/20

Kentucky Center for Clinical and Translational Science

UK CCTS funded by NIH NCRR UL1TR000117 (PI: Kern)

Impact of U.S. Drug Enforcement Administration's Suspicious Order Monitoring Requirements on Patients and Pharmacy Practice: A National Survey of Independent Community Pharmacists

This pilot study assesses issues related to buprenorphine dispensing through a national survey of independent community pharmacists.

Role: Co-investigator

NIDA R03 DA039740 Young (PI) 9/1/16 – 8/31/19 (NCE)

Role of Social Media and Mobile Apps in Sexual and Drug Co-Usage Networks of MSM

The goal of this project is to examine overlap in the sexual and drug co-usage networks of men who have sex with men (MSM) and to overlay information about sexual partnerships facilitated by the use of social networking applications to determine the association between app use and spatial and network-level patterns of HIV risk behavior in a mid-size city in the South.

Role: Principal investigator

NIDA UG3 DA044798-02S1 Young and Cooper (PIs) 8/1/18 – 7/31/19

Kentucky Communities and Researchers Engaging to Halt the Opioid Epidemic (CARE2HOPE)

This is a supplement to “CARE2HOPE” (DA044798). Several CARE2HOPE counties are considering enhancing syringe service programs (SSPs). The study uses a qualitative, multiple case study design to study SSPs that recently opened in 7 rural Kentucky counties participating in the CARE2HOPE project.

Role: Principal Investigator (multi-PI proposal with Hannah Cooper)

NIDA R21 DA042727 Cooper and Young (PIs) 7/28/16 – 7/27/19 (NCE)

Novel methods for research on young rural opioid users at risk of HIV, HCV & OD

The study aims to develop and test the feasibility of using (a) WebRDS, a virtual form of respondent-driven sampling, and (b) a virtual eligibility screener to create a sample (N=200) of young adult opioid users in a rural epicenter of opioid use, heroin use, and related harms. The study will also create and validate novel survey-based and virtual geospatial measures of features of rural risk environments, and develop and pilot (a) an internet survey of the rural risk environment and (b) a system of at-home HIV testing.

Role: Principal Investigator (multi-PI proposal with Hannah Cooper)

NIDA R21 AI131979 Rudolph (PI) 2/15/17 - 1/31/19

Combining phylogenetic, social network, & spatial approaches to identify new HIV infections

This project will develop new analytic methods to combine these three approaches in order to identify the optimal combination of social network, spatial-, and venue-based approaches to better target HIV-case-finding strategies in near real-time.

Role: Co-Investigator

NIDA K01 DA033879 Rudolph (PI) 9/1/12 - 6/30/18 (NCE)

HIV and Substance Abuse Epidemiology among IDUs: Structural and Network Risk Factors

The major goal of this project is to better understand how network and spatial factors act independently and together to influence risk and health-seeking behaviors among HIV positive PWUD in Baltimore, MD.

Role: Collaborator

NIDA R03 DA043379 Havens (PI) 9/15/2016 - 9/14/2017

Epidemiology of HCV Treatment Knowledge and Utilization among Opioid Injectors in Rural Appalachia

The overarching goal of this project is to examine knowledge of new HCV pharmacotherapies and willingness to engage in HCV treatment among rural HCV-positive people who inject drugs (PWID).

Role: Co-investigator

- Pilot Grant from University of Kentucky Center for Clinical and Translational Science Young (PI) 8/26/15 - 05/31/17
 UK CCTS funded by NIH NCRR UL1TR000117 (PI: Kern)
Sexual and Drug Co-usage Partnerships among Men who have Sex with Men (MSM): A Pilot Study on the Influence of Mobile Apps and on the Spatial Distribution of Partner-seeking MSM
 This project explores the role of social networking applications, or “apps”, in facilitating relationships that involve HIV risk behavior (e.g., unprotected sex, injection drug use, sharing of injection equipment) and uses spatial data collection to map the distribution of partner-seeking MSM, which will assist in better targeting future outreach efforts.
 Role: Principal Investigator
- NIMH R43 MH106361 Young and Hopkins (PIs) 9/9/15 – 3/8/17 (NCE)
Semi-Automated Processing of Interconnected Dyads Using Entity Resolution (SPIDER)
 The overarching aim of this SBIR project is to develop and verify a new software system that will assist researchers in more rigorously constructing social networks. The software, Semi-automated Processing of Interconnected Dyads using Entity Resolution (SPIDER), will enable efficient, semi-automated network construction using a library of robust, statistically rigorous algorithms, rich desktop-based annotation tools, and secure web-based technologies. SPIDER will allow for multi-disciplinary utility in studies using varying designs and will include innovative features that respond to emerging methodological trends in HIV/STI research.
 Role: Principal Investigator (multi-PI proposal with Christopher Hopkins)
- NIDA R01 DA033862 Havens (PI) 9/1/12-8/31/16
Epidemiologic Study of the Effectiveness of an ADF in Reducing Opioid Abuse
 The overall aim of this study is to determine the effect of the introduction of an abuse-deterrent extended-release oxycodone formulation on drug use patterns in a cohort of rural drug abusers.
 Role: Co-Investigator/Analyst
- Pilot Grant Program University of Kentucky College of Public Health Young (PI) 5/1/15-6/30/16
Improving methodology for risk network research among populations at high risk for bloodborne infection
 The goal of this study is to examine correlates of the accuracy of ego's reported characteristics of network alters, to determine the impact of tie confirmation criteria on the structural properties of a risk network of Appalachian drug users, and to complete a systematic literature review examining the methodology used to construct sociometric networks in studies that assess drug use and/or sexual risk behavior.
 Role: Principal Investigator
- University of Kentucky College of Public Health Just-in-Time Grant Algarin (PI) 2/23/16 - 6/30-16
Utilizing MSM geosocial networking applications for HIV research in rural areas

The project uses spatial data collection via geosocial networking applications to map the distribution of partner-seeking MSM in a rural Kentucky County. The data will assist in better targeting future outreach efforts for HIV prevention and treatment in this rural community.

Role: Faculty Mentor

NIDA R25 DA031608 (Fisher) Fisher (PI) 9/1/14 - 3/31/16

NIH/NIDA/Fordham University

Ethical considerations for the collection of geographic data for HIV prevention research among illicit drug users

The major goals of this project are to 1) describe the privacy and confidentiality concerns associated with different approaches used to collect geographic information from drug using populations in HIV-prevention and substance-use research and 2) assess how these concerns may influence the validity of participant responses.

2016 Fulbright Global Health Innovations Seminar

The 2016 Fulbright Global Health Innovations seminar is a benefit made available to first year Fulbright Foreign Students and is sponsored by the U.S. Department of State, Bureau of Educational and Cultural Affairs (ECA), as a part of its flagship Fulbright Program. This Seminar contributes to the overall mission of the Fulbright Program: to increase mutual understanding between the people of the United States and people of other countries. The 2015 Fulbright Global Health Innovations Seminar will explore a variety of public health topics and trends from a global perspective.

NIH R01 DA024598 Havens (PI) 4/5/08-1/31/2014

Rural Drug Using Social Networks and HIV

The overall aim of this study is to examine the prevalence, incidence and risk factors for HIV and other blood borne infections such as hepatitis B (HBV) and hepatitis C (HCV) among rural drug users using social network analysis and multilevel modeling.

Role: Data Analyst

Pilot Grant from University of Kentucky Center for Clinical and Translational Science Havens (PI) 12/9/11 - 6/9/13

UK CCTS funded by NIH NCRR UL1TR000117 (PI: Kern)

Feasibility of implementing an HIV vaccine initiative among high-risk drug users in Appalachia

The overall aims are to determine potential for HIV vaccine uptake under contingencies (e.g., efficacy, cost, dosing) and identify barriers to uptake; (2) determine the likelihood that vaccination will precipitate increased levels of HIV risk behavior (i.e., risk compensation); and (3) determine the likelihood that individuals will encourage their risk network members to receive the HIV vaccine (i.e., intervention).

Role: Co-investigator/Analyst

Internal grant (University of Kentucky) Young (PI) 06/09 - 08/09

Influences and Attitudes on HPV Vaccine Acceptance in the Philippines

The overall aim of this study was to examine demographic, behavioral, attitudinal, and sociocultural influences on HPV vaccine acceptance among men and women in the Philippines.
