

College of Public Health Vision, Mission, and Goals

Vision

Catalyzing positive change for Public Health

Mission

To develop public health leaders, conduct innovative and impactful research, and collaborate with partners to improve public health in Kentucky and beyond

Goals

- Goal 1: Impactful education and training programs
- Goal 2: Advance actionable research and creative work in public health
- Goal 3: Build capacity to enhance community engagement in teaching, research, service, and practice
- Goal 4: Integrate Inclusive Excellence through our teaching, research and service
